

## STEPHEN J. GARLAND, PhD

### Books

Gordon M. Bull, William Freeman, and Stephen J. Garland, *Specification for Standard BASIC*, National Computing Centre, Manchester, England, 1973.

Stephen J. Garland, *Introduction to Computer Science with Applications in Pascal*, Addison-Wesley, 1986.

Stephen J. Garland, *Instructor's Guide to Accompany Introduction to Computer Science with Applications in Pascal*, Addison-Wesley, 1986.

John V. Guttag and James J. Horning (editors), with Stephen J. Garland, Kevin D. Jones, Andrés Modet, and Jeannette M. Wing, *Larch: Languages and Tools for Formal Specification*, Springer-Verlag Texts and Monographs in Computer Science, 1993.

### Book Chapters

Stephen J. Garland, "Advanced Placement Computer Science," *Computers in Mathematics Education*, 1984 Yearbook of the National Council of Teachers of Mathematics, edited by Viggo P. Hansen and Marilyn J. Zweng, 1984, pages 194-201.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1985—June 1986*, Vol. 23, pages 183-195, Massachusetts Institute of Technology, 1986.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1986—June 1987*, Vol. 24, pages 167-179, Massachusetts Institute of Technology, 1987.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1987—June 1988*, Vol. 25, Massachusetts Institute of Technology, 1988.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1988—June 1989*, Vol. 26, pages 143-154, Massachusetts Institute of Technology, 1989.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1989—June 1990*, Vol. 27, pages 143-156, Massachusetts Institute of Technology, 1990.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1990—June 1991*, Vol. 28, pages 179-186, Massachusetts Institute of Technology, 1991.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1991—June 1992*, Vol. 29, Massachusetts Institute of Technology, 1992.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1992—June 1993*, Vol. 30, Massachusetts Institute of Technology, 1993.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1993—June 1994*, Vol. 31, Massachusetts Institute of Technology, 1994.

Stephen J. Garland and John V. Guttag, "Systematic Programming Development", *Laboratory for Computer Science Progress Report, July 1994—June 1995*, Vol. 32, pages 227-233, Massachusetts Institute of Technology, 1995.

Stephen J. Garland, John V. Guttag, and James J. Horning, "An overview of Larch," *Functional Programming, Concurrency, Simulation, and Automated Reasoning*, Peter F. Lauer, editor, *Lecture Notes in Computer Science*, Vol. 693 (1993), Springer-Verlag, pages 329-348.

Stephen J. Garland and Nancy A. Lynch, "Using I/O automata for developing distributed systems," *Foundations of Component-Based Systems*, Gary T. Leavens and Murali Sitaraman, editors, Cambridge University Press, 2000, pages 285-312.

Toh Ne Win, Michael D. Ernst, Stephen J. Garland, Dilsun Kirli, and Nancy Lynch, "Using simulated execution in verifying distributed algorithms," *Software Tools for Technology Transfer*, Vol. 6, No. 1 (July 2004), Springer Verlag, pages 67-76. Previously published in *VMCAI 2003*, New York, January 9-11, 2003, *Lecture Notes in Computer Science* 2575, Lenore D. Zuck, Paul C. Attie, Agostino Cortesi, Supratik Mukhopadhyay (editors), Springer Verlag, pages 283-297.

## Journal Papers

Stephen J. Garland, "Generalized interpolation theorems," *Journal of Symbolic Logic*, Vol. 37 (1972), pages 343-351.

Stephen J. Garland, "Languages for first courses in computer science: Basic," *Abacus*, Vol. 1, No. 4 (Summer 1984), Springer-Verlag, New York, pages 39-49.

Stephen J. Garland, "Languages for first courses in computer science: Rebuttals," *Abacus*, Vol. 2, No. 1 (Fall 1984), Springer-Verlag, New York, pages 46-47.

Stephen J. Garland, John V. Guttag, and James J. Horning, "Debugging Larch Shared Language specifications," *IEEE Transactions on Software Engineering*, Vol. 16, No. 9 (September 1990), pages 1044-1057. Also available as Digital Equipment Corporation Systems Research Center Report 60.

Stephen J. Garland and Anthony W. Knapp, "Algorithm 99: Evaluation of Jacobi symbol," *Communications of the ACM*, Vol. 5, No. 6 (June 1962), page 345.

Stephen J. Garland and David C. Luckham, "Program schemes, recursion schemes, and formal languages," *Journal of Computer and System Sciences*, Vol. 7 (1973), pages 119-160.

Stephen J. Garland and A. Kent Morton, "A new master's degree program at Dartmouth College," *ACM SIGCSE Bulletin* 11:4, pages 25-26, December 1979.

Stephen J. Garland and Arthur W. Luehrmann, "Graphics in the BASIC language," *Computer Graphics* (quarterly report of SIGGRAPH-ACM), Vol. 8, No. 3 (1974), pages 1-8.

Peter Robinson, Robin Robinson, and Stephen J. Garland, "Preparation of beta diagrams in structural geology by a digital computer," *American Journal of Science*, Vol. 261 (December 1, 1963), pages 913-928.

James B. Saxe, Stephen J. Garland, John V. Guttag, and James J. Horning, "Using transformations and verification in circuit design," *Formal Methods in System Design*, Vol. 3, No. 3 (December 1993), Springer Verlag, pages 181-209. Previously published in *Designing Correct Circuits*, IFIP, Lyngby, Denmark, January 6-8, 1992, North-Holland IFIP Transactions A-5, 1992, and as Digital Equipment Corporation Systems Research Center Report 78.

### Conference Papers

Andrej Bogdanov, Stephen J. Garland, and Nancy A. Lynch, "Mechanical translation of I/O automaton specifications into first-order logic," *Formal Techniques for Networked and Distributed Systems*, FORTE 2002, Houston, Texas, November 11-14, 2002, *Lecture Notes in Computer Science* **2529**, Doron A. Peled and Moshe Y. Vardi (editors), Springer-Verlag, pages 364-368.

Stephen J. Garland, "Second-order cardinal characterizability," *Axiomatic Set Theory*, Proceedings of Symposia in Pure Mathematics, Vol. XIII, Part 2, American Mathematical Society, 1974, pages 127-146.

Stephen J. Garland, "Where, when, and why should computers be used in education?" *Man and Computer*, North-Holland, 1975, pages 97-103.

Stephen J. Garland, "Why and how should colleges teach computing," *Proceedings of the Conference on Prospects in Mathematics Education in the 1980's (PRIME-80)*, Mathematical Association of America, 1978, pages 64-68.

Stephen J. Garland, "The role of language in teaching programming," *Proceedings of NECC/5*, National Educational Computing Conference, June 6-8, 1983, Baltimore, Maryland, page 1.

Stephen J. Garland and John V. Guttag, "Inductive methods for reasoning about abstract data types," *Fifteenth Annual ACM Symposium on Principles of Programming Languages*, San Diego, CA, January 1988, pages 219-228.

Stephen J. Garland and John V. Guttag, "LP: The Larch Prover," *Ninth International Conference on Automated Deduction*, Argonne, Illinois, May 1988, *Lecture Notes in Computer Science*, Vol. 310, Springer-Verlag, pages 748-749.

Stephen J. Garland and John V. Guttag, "An overview of LP, the Larch Prover," *Third International Conference on Rewriting Techniques and Applications*, Chapel Hill, NC, April 1989, *Lecture Notes in Computer Science*, Vol. 355, Springer-Verlag, pages 137-151.

Stephen J. Garland and John V. Guttag, "Using LP to debug specifications," *Programming Concepts and Methods*, IFIP WG 2.2/2.3, April 2-5, 1990, Sea of Galilee, Israel, North-Holland.

Stephen J. Garland, John V. Guttag, and Jørgen Staunstrup, "Verification of VLSI circuits using LP," *The Fusion of Hardware Design and Verification*, IFIP WG 10.2, Glasgow, Scotland, July 4-6, 1988, North Holland, pages 329-345.

Stephen J. Garland and Donald L. Kreider, "Problems of implementing a new mathematics curriculum," *The Future of College Mathematics: Proceedings of a Conference-Workshop on the First Two Years of College Mathematics*, edited by Anthony Ralston and Gail S. Young, Springer-Verlag, 1983, pages 209-221.

Stephen J. Garland and David C. Luckham, "On the equivalence of schemes," *Fourth Annual ACM Symposium on the Theory of Computing* (1972), pages 65-72.

Stephen J. Garland and David C. Luckham, "Translating recursion schemes into program schemes," *ACM Conference on Proving Assertions about Programs* (1972), pages 83-96.

Dilsun Kirli Kaynar, Anna Chefter, Laura Dean, Stephen J. Garland, Nancy A. Lynch, Toh Ne Win, and Antonio Ramirez-Robredo, "Simulating nondeterministic systems at multiple levels of abstraction," *CONCUR 2002 Tools Day*, Brno, Czech Republic, August 24, 2002.

Li-Wei Lehman, Stephen J. Garland, and David L. Tennenhouse, "Active reliable multicast," *INFOCOM '98*, IEEE Communications Society, San Francisco, April 1998.

Victor Luchangco, Ekrem Söylemez, Stephen Garland, and Nancy Lynch, "Verifying timing properties of concurrent algorithms," *FORTE '94: Seventh International Conference on Formal Description Techniques*, Berne, Switzerland, October 4-7, 1994, Chapman & Hall.

Erik L. Nygren, Stephen J. Garland, and M. Frans Kaashoek, "PAN: a high-performance active network node supporting multiple mobile code systems," *OpenArch '99*, IEEE Communications Society, New York.

Tsvetomir P. Petrov, Anna Pogosyants, Stephen J. Garland, Victor Luchangco, and Nancy A. Lynch, "Computer-assisted verification of an algorithm for concurrent timestamps," *Formal Description Techniques IX: Theory application and tools (FORTE/PSTV)*, edited by Reinhard Gotzhein and Jan Brederke, Kaiserslautern, Germany, October 1996, Chapman & Hall, pages 29-44.

Jørgen F. Søgaard-Anderson, Stephen J. Garland, John V. Guttag, Nancy A. Lynch, and Anna Pogosyants, "Computed-assisted simulation proofs," *Fifth Conference on Computer-Aided Verification*, Elounda, Greece, June 1993, *Lecture Notes in Computer Science*, Vol. 697, Springer-Verlag, pages 305-319.

Jørgen Staunstrup, Stephen J. Garland, and John V. Guttag, "Localized verification of circuit descriptions," *Automatic Verification Methods for Finite State Systems*, Grenoble, France, June 1989, *Lecture Notes in Computer Science*, Vol. 407, Springer-Verlag, pages 349-364.

Jørgen Staunstrup, Stephen J. Garland, and John V. Guttag, "Mechanized verification of circuit descriptions using the Larch Prover," *Theorem Provers in Circuit Design*, Nijmegen, The Netherlands, June 22-24, 1992, North-Holland IFIP Transactions A-10, pages 277-299.

Katherine A. Yelick and Stephen J. Garland, "A parallel completion procedure for term rewriting systems," *Eleventh International Conference on Automated Deduction*, Sarasota Springs, NY, June 1992, *Lecture Notes in Computer Science*, Springer-Verlag, pages 109-123.

## Patents

Stephen J. Garland, Robert N. Block, and George C. Conant, *Multiple Synchronized Views for Creating, Analyzing, Editing, and Using Mathematical Formulas*, United States Provisional Patent Application No. 13/206,728, August 10, 2011.

Stephen J. Garland and Nancy A. Lynch, *Model-Based Software Design and Validation*, United States Patent No. 6,289,502, September 11, 2001.

## Reviews

Stephen J. Garland, Review of "Inductively defined sets of natural numbers" by C. Spector, *The Journal of Symbolic Logic*, Vol. 34, No. 2 (June 1969), pages 295-296.

Stephen J. Garland, Review of "On the uniformization principle" by Yoshindo Suzuki, *The Journal of Symbolic Logic*, Vol. 36, No. 4 (December 1971), page 687.

Stephen J. Garland, Review of "A complete classification of the  $\Delta_1/2$ -functions" by Yoshindo Suzuki, *The Journal of Symbolic Logic*, Vol. 36, No. 4 (December 1971), page 688.

Stephen J. Garland, Review of "On limits of sequences of hyperarithmetical functionals and predicates" by Hisao Tanaka and "A note on the effective descriptive set theory" by Tosiyyuki Tugué, Hisao Tanaka, *The Journal of Symbolic Logic*, Vol. 39, No. 2 (June 1974), pages 344–345.

Stephen J. Garland, Review of "Indescribability and the continuum" by Kenneth Kunen, *The Journal of Symbolic Logic*, Vol. 40, No. 4 (December 1975), page 632.

## Theses

Stephen J. Garland, *Arithmetic Functions on the Constructively Accessible Ordinal Numbers*, Bachelor's Thesis, Department of Mathematics, Dartmouth College, 1963.

Stephen J. Garland, *Second-Order Cardinal Characterizability*, PhD Thesis, Department of Mathematics, University of California at Berkeley, 1967.

## Committee Reports

Stephen J. Garland (panel member), *Recommendations on Undergraduate Mathematics Courses Involving Computing*, A Report of the Panel on the Impact of Computing on Mathematics Courses, Committee on the Undergraduate Program in Mathematics, Mathematical Association of America, 1972.

Stephen J. Garland (editor), *Calculus and Computing*, American Mathematical Society, Mathematical Association of America, 1975.

Stephen J. Garland (chairman, editorial committee), *American National Standard for Minimal Basic*, ANSI X3.60–1978, American National Standards Institute, 1978. Also available as *Standard ECMA -55, Minimal Basic*, European Computer Manufacturers Association, January 1978.

Stephen J. Garland (chairman, editorial committee), *Draft Proposed American National Standard for Basic*, ANSI/X3J2 documents 1979/08, 1979/51, 1980/50, 1980/64.

Stephen J. Garland (member, computer science subpanel), *Recommendations for a General Mathematical Sciences Program*, Committee on the Undergraduate Program in Mathematics, Mathematical Association of America, 1981.

Stephen J. Garland (editor), *Advanced Placement Course Description: Computer Science*, The College Board, 1982.

Stephen J. Garland (major contributor), *Teacher's Guide for Advanced Placement Courses in Computer Science*, The College Board, 1983, 121 pages.

Stephen J. Garland (editor and website designer), *MIT Project Oxygen: Pervasive Human-Centered Computing*, MIT Computer Science and Artificial Intelligence Laboratory, <http://oxygen.csail.mit.edu>, 2000-2004.

### Technical Memoranda

William Y. Arms and Stephen J. Garland, *A Preview of Basic 7*, SP047, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1978.

Gordon M. Bull and Stephen J. Garland, *A Specification for Dartmouth BASIC, Version 7*, TM112, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1980.

Dorothy E. Denning, Peter J. Denning, Stephen J. Garland, Michael A. Harrison, and Walter L. Ruzzo, *Proving protection systems safe*, Technical Report CSD TR 209, Purdue University, November 1976.

Stephen J. Garland, Robert F. Hargraves, Anthony W. Knapp, Thomas E. Kurtz, and Jorge Llacer, *ALGOL for the LGP-30, A Comparison*, Computation Center, Dartmouth College, Hanover, NH, February 15, 1962.

Stephen J. Garland, Anthony W. Knapp, and Thomas E. Kurtz, *SCALP Block Diagrams*, CCM-8A, Computation Center, Dartmouth College, Hanover, NH, May 15, 1963.

Stephen J. Garland, Anthony W. Knapp, and Thomas E. Kurtz, *SCALP Coding Sheets*, CCM-8B, Computation Center, Dartmouth College, Hanover, NH, May 15, 1963.

Stephen J. Garland, Anthony W. Knapp, and Thomas E. Kurtz, *A Manual for SCALP, being a Self Contained ALgol Processor for the General Precision LGP-30*, CCM-7A, Computation Center, Dartmouth College, Hanover, NH, January 1, 1964.

Stephen J. Garland, *Background User's Manual*, TM008, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1969.

Stephen J. Garland, *Specifications for Executive Commands*, TM059, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1970.

Stephen J. Garland, *Dartmouth BASIC: A Specification*, TM028, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1973.

Stephen J. Garland, *Structured Programming, Graphics, and BASIC*, SP028, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1976.

Stephen J. Garland, *TIOA User Guide and Reference Manual*, VeroModo, Inc., 2005.

Stephen J. Garland and John V. Guttag, *A Guide to LP: the Larch Prover*, MIT Laboratory for Computer Science, December 1991. Also available as Digital Equipment Corporation Systems Research Center Report 82.

Stephen J. Garland, Dilsun Kaynar, Nancy A. Lynch, Joshua A. Tauber, and Mandana Vaziri, *TIOA Tutorial*, MIT Computer Science and Artificial Intelligence Laboratory, Cambridge, Massachusetts, May 2005.

Stephen J. Garland and Nancy A. Lynch, *The IOA Language and Toolset: Support for Designing, Analyzing, and Building Distributed Systems*, Technical Report MIT-LCS-TR-762, MIT Laboratory for Computer Science, Cambridge, MA, August, 1998.

Stephen J. Garland, Nancy A. Lynch, Joshua A. Tauber, and Mandana Vaziri, *IOA User Guide and Reference Manual*, MIT Computer Science and Artificial Intelligence Laboratory, Cambridge, Massachusetts, August 14, 2003.

Stephen J. Garland, Nancy A. Lynch, and Mandana Vaziri, *IOA: a Formal Language for Input/Output Automata*, MIT Laboratory for Computer Science, 1997.

Stephen J. Garland and John S. McGeachie, *Multiple Terminal Programming*, TM009, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1969.

Stephen J. Garland and Christine Thompson, *DTSS RUNOFF\*\*\* Reference Manual*, TM005, Kiewit Computation Center, Dartmouth College, Hanover, NH, 1976.

Dilsun Kirli Kaynar, Anna Chefter, Laura Dean, Stephen J. Garland, Nancy A. Lynch, Toh Ne Win, and Antonio Ramirez-Robredo. *The IOA simulator*, Technical Report MIT-LCS-TR-843, MIT Laboratory for Computer Science, Cambridge, MA, July 2002.

Dilsun Kaynar, Nancy Lynch, Sayan Mitra, and Stephen Garland, *The TIOA Language*, MIT Computer Science and Artificial Intelligence Laboratory, Cambridge, Massachusetts, May 2005.

Nancy A. Lynch, Stephen J. Garland, Dilsun Kaynar, Laurent Michel, and Alex Shvartsman, *The Tempo Language User Guide and Reference Manual*, MIT Computer Science and Artificial Intelligence Laboratory, October 2011.

Joshua Tauber and Stephen J. Garland, *Definition and expansion of composite automata in IOA*, Technical Report MIT-CSAIL-TR-2004-048, MIT Computer Science and Artificial Intelligence Laboratory, Cambridge, Massachusetts, July 2004.

### Unpublished Manuscripts

Stephen J. Garland, *A Graphical Solution of 3xM Game Matrices*, 1959 Westinghouse Science Talent Search, Mt. Lebanon High School, Mt. Lebanon, Pennsylvania, 1959, 50 pages.

Stephen J. Garland, *Mathematical Logic*, Department of Mathematics, Dartmouth College, 1979, 229 pages.
